

**REMONDIS®**  
WORKING FOR THE FUTURE

**Sustainability in action.  
In five different areas**

Growing sustainability for the benefit of all. All of our activities are closely intertwined and promote sustainable development in all its forms.

### Sharing

Explaining and raising awareness of sustainable development

- Sustainable development strategies
- Development goals
- The fundamentals of sustainability
- Shortage of raw materials

### Fostering

For more sustainability in the economy and in society

- Partnerships with universities
- Advice on conserving resources and curbing climate change
- Actively helping to protect nature
- Awards
- Environmental education

### Living

Running a business that is environmentally, economically and socially sustainable. At all times

- Strong local ties
- Sustainable core values
- Occupational health and safety
- Meaningful jobs irrespective of qualifications or education
- International commitment promoting global sustainable development

### Acting

A portfolio of services that conserves resources and protects the environment

- Recycled raw materials
- Contributing to the Green Deal
- Energy production
- Lippe Plant – Europe's largest industrial recycling centre
- An integral range of recycling, service and water activities
- Disposal or recycling of hazardous waste
- Plastics recycling
- Phosphorus recovery
- Land remediation

### Inspiring

Transferring technology and know-how to benefit local residents, companies and councils

- International flagship projects
- Company partnerships to promote sustainable production activities
- Sustainability certificate
- Making the most of recycling potential
- PPPs to optimise recycling and keep fees and charges stable
- Focusing on material streams and thinking ahead
- Research
- Cradle to Cradle®
